MediaAlpha Recapitalization

On February 26, 2019, MediaAlpha completed the sale of a significant minority stake to Insignia Capital Group in connection with a recapitalization and cash distribution to a subsidiary of White Mountains Insurance Group, Ltd. (“White Mountains”) and other existing equityholders. As previously announced, the transaction results in an estimated gain of approximately \$55 to White Mountains’ book value per share and adjusted book value per share. Net cash proceeds received by White Mountains were approximately \$88 million. Including the gain, December 31, 2018 book value per share would have been \$951 and adjusted book value per share would have been \$943.

Non-GAAP Financial Measures

Adjusted book value per share is a non-GAAP financial measure which is derived by adjusting (i) the GAAP book value per share numerator and (ii) the common shares outstanding denominator, as described below. The GAAP book value per share numerator is adjusted (i) to include a discount for the time value of money arising from the expected timing of cash payments of principal and interest on the Build America Mutual surplus notes and (ii) to add back the unearned premium reserve, net of deferred acquisition costs, at HG Global. The denominator used in the calculation of adjusted book value per share equals the number of common shares outstanding adjusted to exclude unearned restricted common shares, the compensation cost of which, at the date of calculation, has yet to be amortized. In calculating the gain expected from the MediaAlpha transaction described above, only the adjustment to the denominator is applicable.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
