CORPORATE GOVERNANCE

White Mountains is committed to maintaining sound corporate governance practices. Corporate governance is the system by which companies are directed and controlled and involves the distribution of rights and responsibilities among the Board, management and the Company’s Members. The Company has established Corporate Governance Guidelines that spell out its overall approach towards corporate governance.

The Company also has a Code of Business Conduct that applies to all directors, officers and employees in carrying out their responsibilities to and on behalf of the Company. No waivers of the Code of Business Conduct were requested of, or granted by, the Board for any director or executive officer during 2005.

The Company’s Corporate Governance Guidelines and Code of Business Conduct are available at www.whitemountains.com. These documents are available in print free of charge to any Member upon request.

The Board has determined that a majority of the Company’s current directors are independent, as defined in Section 303A of the New York Stock Exchange (“NYSE”) Listed Company Manual. Those directors determined to be independent are Mr. Berkowitz, Mr. Clark, Mr. Cochran, Mr. Frinquelli, Ms. Holiday and Mr. Smith. For a director to be independent, the Board must determine that the director has no relationship with the Company (other than being a director or shareholder of the Company) or has only immaterial relationships with the Company. The Company does not apply categorical standards as a basis for determining director independence. Accordingly, the Board considers all relevant facts and circumstances, on a case-by-case basis, in making an independence determination.

The Board notes no relationships (other than being directors or shareholders) with Mr. Frinquelli, Ms. Holiday and Mr. Smith. The Board notes relationships with Messrs. Berkowitz, Clark and Cochran, as disclosed herein under “Certain Relationships and Related Transactions”, that it concluded are immaterial and do not impair their independence. In making its independence determinations, the Board considered all such relationships in light of NYSE standards as well as the attributes it believes should be possessed by independent-minded directors. Those attributes include the relative impact of the transactions to the director’s personal finances, the perceived degree of dependence by the director or the Company upon the relationship or transactions continuing in the future and whether the transactions were on terms that were reasonable and competitive. The Board concluded that Messrs. Berkowitz, Clark and Cochran’s relationships do not impair their ability to remain independent.

At each meeting of the Board, non-management directors meet in separate executive session without Company management present. The Chairman presides over these meetings. The procedures for Members, employees and others interested in communicating directly with any or all of the non-management directors are described on page 33.

The Board

The day-to-day management of the Company, including preparation of financial statements and short-term and long-term strategic planning, is the responsibility of management. The primary responsibility of the Board is to oversee and review management’s performance of these functions in order to advance the long-term interests of the Company and its Members.

In fulfilling this responsibility, directors must exercise common sense business judgment and act in what they reasonably believe to be in the best interests of the Company and its Members. Directors are entitled to rely on the honesty and integrity of senior management and the Company’s outside advisors and auditors. However, it is the Board’s responsibility to establish that they have a reasonable basis for such reliance by ensuring that they have a strong foundation for trusting the integrity, honesty and undivided loyalty of the senior management team upon whom they are relying and the independence and expertise of outside advisors and auditors.

Under its charter, the committee is responsible for determining desired Board skills and attributes such as independence, integrity, expertise, breadth of experience, knowledge about the Company's business or industry and ownership interest in the Company. Directors must be willing to devote adequate time and effort to Board responsibilities. As set forth in the Company's Corporate Governance Guidelines and its Charter, the committee is responsible for recommending director candidates to the Board.

Consideration of Director Candidates Nominated by Members. The Company has not adopted a specific policy regarding consideration of director candidates from Members. Members who wish to recommend candidates for consideration by the committee may submit their nominations in writing to the Corporate Secretary at the address provided in this Proxy Statement. Under the Company's Bye-laws, nominations for the election of directors may be made by the Board or by any Member entitled to vote for the election of directors (a "Qualified Member"). A Qualified Member may nominate persons for election as directors only if written notice of such Qualified Member's intent to make such nomination is delivered to the Secretary not later than: (1) with respect to an election to be held at an annual general meeting, 90 days prior to the anniversary date of the immediately preceding annual general meeting or not later than 10 days after notice or public disclosure of the date of the annual general meeting is given or made available to Qualified Members, whichever date is earlier, and (2) with respect to an election to be held at a special general meeting for the election of directors, the close of business on the seventh day following the date on which notice of such meeting is first given to Qualified Members. Voting Rights of Members

As of March 27, 2006, there were 10,780,053 common shares outstanding. The limitations set forth above do not apply to any Member which is a "Byrne Entity" (as defined below) for any matter submitted to the vote of Members, except with respect to the election of directors. "Byrne Entity" means Mr. Byrne (a director of the Company) and any foundation or trust established by any associate or affiliate of him (or any group of which he is a part), as defined under Section 13(d) of the Exchange Act.

If, as a result of giving effect to the foregoing provisions or otherwise, the votes conferred by the Controlled common shares of any person would otherwise represent 10% or more of the votes conferred by all the outstanding common shares, the votes conferred by the Controlled common shares of such person shall be reduced in accordance with the foregoing provisions. Such process shall be repeated until the votes conferred by the Controlled common shares of each person represent less than 10% of the votes conferred by all common shares.

The Company concluded that this consideration created no additional compensation for Mr. Tolman. In connection with the exchange offer, Mr. Tolman also

received an additional deferred compensation balance of \$890,388 as a make-whole adjustment for unfavorable tax consequences resulting from the exchange as well as a cash payment of \$428,476 as an incentive to accept the terms of the exchange; these items, which totalled \$1,318,864, have been included in the Summary Compensation Table as compensation. - (a) Performance shares are payable only upon completion of pre-defined business goals and are valued based on the market value of common shares at the time awards are earned. Performance shares are typically paid in cash but in some cases can be paid in common shares if the Compensation Committee so determines. With respect to the performance shares awarded to the Named Executive Officers during 2005 for the three-year performance cycle from January 1, 2005 to December 31, 2007 and the performance shares awarded to Messrs. Fass and Miller during 2005 for the three-year performance cycle from January 1, 2004 to December 31, 2006, target performance is the attainment of a corporate annualized return on equity ("ROE") of 13% after-tax as

measured by the Company's growth in its intrinsic business value. At a ROE of 6% or less (threshold) the percentage of performance shares payable will be 0% and at a ROE of 20% or more (maximum) the percentage of performance shares payable will become 200% of target.

- (b) Mr. Barrette was awarded 8,000 performance shares at target during 2005 for the three-year performance period from January 1, 2005 to December 31, 2007, but forfeited all his outstanding performance shares upon his retirement from the Company in October 2005.

Mr. Fass was also granted White Mountains Re performance units during 2005 for the three-year performance period from January 1, 2005 to December 31, 2007 as follows:

			Threshold (#)	Target (#)	Maximum (#)
Steven E. Fass	1,400	3 yrs.	0	1,400	2,800

- (a) Mr. Fass' performance units are payable only upon completion of pre-defined business goals. Each unit is initially valued at \$1,000 (or \$1,400,000 in total) and compounds in value by White Mountains Re's after-tax underwriting return on capital ("UROC") achieved during the performance period. With respect to this award, target performance is the attainment of a 13% UROC. At a UROC of 6% or less (threshold) the percentage of performance units payable will be 0% and at a UROC of 20% or more (maximum) the percentage of performance units payable will be 200% of target. For results above or below target, linear interpolation is used to calculate the performance factor. UROC is a proprietary measure which is viewed by the Company as being indicative of White Mountains Re's operating performance.

	2004 - 2006	8,000	3 yrs.	0	8,000	16,000

In addition, each unit is initially valued at \$100 (or \$1,056,000 in total for the 2005 - 2007 cycle, \$800,000 in total for the 2004 - 2006 cycle) and compounds in value by OneBeacon's UROC achieved during the performance period. With respect to Mr. Miller's award for the three-year performance period from January 1, 2005 to December 31, 2007, target performance is the attainment of an adjusted GAAP combined ratio of 95%. At an adjusted GAAP combined ratio of 100% or more (threshold) the percentage of performance units payable will be 0% and at an adjusted GAAP combined ratio of 90% or less (maximum) the percentage of performance units payable will be 200% of target. With respect to Mr. Miller's award for the three-year performance period from January 1, 2004 to December 31, 2006, target performance is the attainment of an adjusted GAAP combined ratio of 94%. At an adjusted GAAP combined ratio of 99% or more (threshold) the percentage of performance units payable will be 0% and at an adjusted GAAP combined ratio of 88% or less (maximum) the percentage of performance units payable will be 200% of target. 				Threshold (#)	Target (#)	Maximum (#)
Gary C. Tolman	2005 - 2007	906	3 yrs.	0	906	906
	2005 - 2006	621	2 yrs.	0	621	621
	2005	307	1 yr.	0	307	307

- (a) Each unit is initially valued at \$1,000 (or \$307,000 in total for the 2005 cycle, \$621,000 in total for the 2005 - 2006 cycle, \$906,000 in total for the 2005 - 2007 cycle) and compounds in value by Esurance's after-tax return on capital ("EROC") achieved during the performance period. With respect to each of these awards, at an Esurance economic combined ratio (the "Esurance Ratio") of 100% or less, the Compensation Committee shall determine the percentage of performance units payable but in no event shall the percentage be greater than 100% (target). At an Esurance Ratio of greater than 100% (threshold), the percentage of performance units payable will be 0%. The Deferred Benefit Plan credited each participant’s account annually with amounts based on the additional value of pension and 401(k) benefits earned that were above Internal Revenue Service limits on qualified plan benefits. Pursuant to the Deferred Benefit Plan, Mr. Fass’ remuneration payable can be invested in various investment options including common shares. None of the investment options offered under the Deferred Benefit Plan provides an above-market rate of interest. Mr. Fass’ account balance under the Deferred Benefit Plan was approximately \$1,060,387 as of December 31, 2005, no portion of which was denominated in common shares.

Voluntary Deferred Compensation Plans. The Named Executive Officers are eligible to voluntarily participate in various unfunded, nonqualified plans for the purpose of deferring current compensation for retirement savings (the “Deferred Compensation Plans”). Pursuant to the Deferred Compensation Plans, participants can choose to defer all or a portion of qualifying remuneration payable (consisting of base salary, annual bonus or long-term incentive compensation), which can be invested in various investment options including common shares. None of the investment options offered under the Deferred Compensation Plans provides an above-market rate of interest.

All compensation credited to the Deferred Compensation Plan accounts of the Named Executive Officers has been included in the Summary Compensation Table for the period in which such compensation was earned (subject to deferral).

Employment, Termination of Employment and Change in Control Agreements

Employment Agreements

Pursuant to his April 2005 employment letter, Mr. Miller was provided, in addition to OneBeacon’s customary officer benefits, a sign-on bonus of \$1,000,000 (\$500,000 of which was paid in 2005 and \$500,000 was paid in 2006) and a guaranteed annual bonus of no less than \$200,000 for 2005, 2006 and 2007. Each installment of Mr. Miller’s sign-on bonus carries with it the obligation that he remain employed with White Mountains for the twelve month period following receipt of each installment. Under certain circumstances, if Mr. Miller’s employment with OneBeacon is terminated within the first two years, Mr. Miller is entitled to a separation payment equal to two years of salary.

Pursuant to his February 2003 employment letter, Mr. Foy was provided, in addition to the Company’s customary officer benefits, a sign-on bonus of \$500,000, a guaranteed annual bonus of no less than \$200,000 for 2003, 2004 and 2005 and a one-time grant of 3,000 Restricted Shares vesting at the end of Mr. Foy’s third year of employment. Under certain circumstances, if Mr. Foy’s employment with the Company is terminated within the first three years, Mr. Foy is entitled to one year of accrued salary and bonus and a cash payment equal to a pro rated value of his unearned performance share awards in an amount not less than the value of 3,000 common shares.

Change in Control Agreements

The Company has no change in control agreements with its executive officers. Under the Incentive Plan, if a change in control of the Company were to occur, certain events, such as involuntary or constructive employment termination or amendments to the Incentive Plan which are materially adverse to Incentive Plan participants, may cause Options to become fully exercisable, Restricted Shares to become immediately vested and performance shares and performance units to become payable in full or in part. Such circumstances are more fully described in the Incentive Plan. In addition, a change in control of the Company may trigger distributions under certain of the Deferred Compensation Plans and the Deferred Benefit Plan in accordance with their terms.

Olympus

Folksamerica Re and Sirius International have participated in quota share retrocessional arrangements with Olympus. Under these arrangements, for an override commission on premiums ceded, Folksamerica Re ceded up to 75% of substantially all of its short-tailed excess of loss business, mainly property and marine, and 50% of its proportional property business and Sirius International ceded 25% of its new and renewal short-tailed proportional and excess of loss business to Olympus. Additionally, White Mountains Re was to receive a profit commission with respect to the profitability of the business placed with Olympus. This profit commission arrangement is subject to a deficit carryforward whereby net underwriting losses from one underwriting year carryover to future underwriting years. Olympus recorded substantial net underwriting losses in 2005. Accordingly, White Mountains Re did not record a profit commission from Olympus during 2005 and does not expect to record profit commissions from Olympus for the foreseeable future. During 2004 and 2003, White Mountains Re recorded profit commissions from Olympus of \$12.6 million and \$45.2 million, respectively.

Effective January 1, 2006, Sirius International no longer cedes any of its business to Olympus and Folksamerica Re renewed its quota-share reinsurance arrangements with Olympus on modified terms. Under its revised arrangements, for an override commission on premiums ceded, Folksamerica Re will cede up to 35% of its 2006 underwriting year short-tailed excess of loss business, mainly property and marine, to Olympus and a newly-formed reinsurer, Helicon Reinsurance Company, Ltd. ("Helicon"). Olympus and Helicon share, pro rata, in this up to 35% cession based on their relative capital bases. The 2005 and prior underwriting year business will continue to run-off with Olympus.

Investment funds managed by Franklin, which own approximately 19% of the common shares of the Company, own approximately 3% of Olympus. Mr. Berkowitz, a director of the Company, is the founder and Managing Member of Fairholme, a registered investment adviser. Mr. Berkowitz is Deputy Chairman and a director of Olympus and, through Fairholme, controls approximately 2% of the common shares of Olympus. Mr. John Gillespie, a director of the Company, through investment management arrangements including Prospector, controls less than 0.1% of the common shares of Olympus. In addition, other directors and executive officers of White Mountains (consisting of Messrs. Byrne, Fass and Waters) own approximately 0.6% of the common shares of Olympus. White Mountains does not own any direct interest in, nor does it control, Olympus or Helicon. In addition, Mr. Waters' consulting firm, Mulherrin, was retained by Olympus and Helicon during 2005 to perform advisory services. Mulherrin earned approximately \$230,000 during 2005 for such services.

During 2005, 2004 and 2003, White Mountains ceded \$451.6 million, \$465.6 million and \$449.1 million, respectively, in written premiums and \$841.8 million, \$269.5 million and \$107.0 million, respectively, in losses and loss adjustment expenses to Olympus. White Mountains receives fee income on reinsurance placements referred to Olympus and is entitled to additional fees based on net underwriting profits on referred business. During 2005, 2004 and 2003, White Mountains earned \$60.7 million, \$68.7 million and \$98.4 million of fee income from Olympus.

Symetra

Through its holdings of common shares and warrants, White Mountains owns approximately 24% of Symetra on a fully-converted basis. White Mountains is entitled to appoint three persons to Symetra's eight member board of directors (currently Messrs. John Gillespie, Robert R. Lusardi and Foy). In addition, Mr. Foy serves as Chairman of Symetra.

Berkshire owns approximately 24% of the common shares of Symetra on a fully-converted basis. In addition, investment funds managed by Franklin own approximately 10% of the common shares of Symetra on a fully converted basis. Mr. Berkowitz, through Fairholme, controls approximately 2% of the common shares of Symetra on a fully converted basis. Mr. John Gillespie, through investment management arrangements including Prospector, controls approximately 3% of the common shares of Symetra on a fully converted basis.

FSA

At December 31, 2005, White Mountains owned 1% of the common shares of FSA with a fair value of \$53.2 million. Mr. Cochran, a director of the Company, is Chairman and CEO of FSA. Effective March 31, 2006, White Mountains is required to sell this investment back to FSA's parent, Dexia S.A.

Prospector

During 2005, White Mountains revised its relationship with Prospector and Mr. John Gillespie, Prospector's founder and Managing Member. The revised arrangement was effective as of August 1, 2005 and is summarized as follows:

Under the revised relationship, Prospector serves as a discretionary adviser with respect to specified assets, primarily equity securities, managed by WM Advisors on behalf of White Mountains, Montpelier and Symetra. Pursuant to an Investment Management Agreement, during 2005 Prospector charged WM

Advisors fees based on the following schedule: 100 basis points on the first \$200 million; 50 basis points on the next \$200 million; and 15 basis points on amounts over \$400 million. Effective March 1, 2006, pursuant to an amendment to the Investment Management Agreement, Prospector will charge WM Advisors fees based on the following schedule: 100 basis points on the first \$200 million; 50 basis points on the next \$200 million; and 25 basis points on amounts over \$400 million. At December 31, 2005, Prospector served as a discretionary advisor to WM Advisors with respect to approximately \$1.6 billion of specified assets and during 2005 earned \$2.8 million in fees pursuant to the Investment Management Agreement.

Under the revised relationship, Prospector advises White Mountains on matters including capital management, asset allocation, private equity investments and mergers and acquisitions. Pursuant to a Consulting Agreement for those services, Prospector has been granted 7,000 performance shares for the 2005-2007 performance cycle. In accordance with the terms of the Incentive Plan, performance against target governing the performance shares will be confirmed by the Compensation Committee of the Board following the end of 2007 and the number of performance shares actually awarded at that time will range from 0% to 200% of the target number granted. Commencing with the 2006-2008 performance cycle, unless and until the Consulting Agreement has been terminated, and subject to the approval of the Compensation Committee, at the beginning of each performance cycle Prospector shall be granted performance shares with a target value at the time of grant of approximately \$4.5 million. The Compensation Committee shall establish the performance target for such performance shares.

The existing revenue sharing arrangement between Prospector and Fund American Companies, Inc., a wholly-owned subsidiary of the Company, was terminated. During 2005, White Mountains' received total revenues of approximately \$2.1 million and paid total expenses of approximately \$2.1 million under this revenue sharing agreement. The provisions of a second revenue sharing agreement that pertains to the founder's revenue share to which Folksamerica is entitled remains in effect. During 2005, White Mountains earned \$.3 million under said agreement.

Mr. Gillespie remains a director of White Mountains, but is no longer Deputy Chairman of the Board and President of WM Advisors. Pursuant to the Consulting Agreement described above, Mr. Gillespie's 8,000 target performance shares for the 2005-2007 performance cycle were canceled without payment and his 10,000 and 13,000 target performance shares for the 2004-2006 and 2003-2005 performance cycles, respectively, remained outstanding. In addition, Mr. Gillespie's previous Employment Agreement with White Mountains was terminated and the severance provisions were amended. Under the amended provisions, in the event the Consulting Agreement is terminated for any reason, Mr. Gillespie is entitled to receive a payment equal to the market value of his outstanding performance shares for the 2004-2006 cycle pro-rated for that portion of the performance period that preceded the termination. Mr. Gillespie's performance share payout for the 2003-2005 performance cycle was earned on February 22, 2006 and he was paid \$11.4 million.

At December 31, 2005, White Mountains had \$125.2 million invested in limited partnership investment interests managed by Prospector. In addition, Messrs. Byrne, George Gillespie and John Gillespie, each directors of the Company, owned limited partnership investment interests managed by Prospector as of such date.

Other relationships and transactions

In accordance with the terms of a voluntary exchange offer made by White Mountains to all employees of Esurance Inc., Mr. Tolman's ownership interests in Esurance Inc. (which consisted of a 1% phantom interest in the equity of Esurance Inc. that he acquired in 2001, incentive stock options to acquire 502,550 common shares of Esurance Inc. at a price of \$.30 per share that he was awarded in 1999 and incentive stock options to acquire 7,000,000 common shares of Esurance Inc. at a price of \$.047 per share that he was awarded in 2001) were exchanged in 2005 for a balance in a non-qualified deferred compensation plan in the amount of \$2,910,768. The Company concluded that this consideration created no additional compensation for Mr. Tolman. In connection with the exchange offer, Mr. Tolman also received an additional deferred compensation balance of \$890,388 as a make-whole adjustment for unfavorable tax consequences resulting from the exchange as well as a cash payment of \$428,476 as an incentive to accept the terms of the exchange; these items, which totalled \$1,318,864, have been included in the Summary Compensation Table as compensation.

Mr. Clark, a director of the Company, is Vice Chairman of Lehman. Lehman has, from time to time, provided various services to White Mountains including investment banking services, brokerage services, underwriting of debt and equity securities and financial consulting services.

Mr. George Gillespie, Chairman of the Company, was a Partner at CS&M through December 31, 2005 and currently serves as Special Counsel to CS&M. CS&M has been retained by White Mountains from time to time to perform legal services.

Mr. Mark Byrne, a son of director Jack Byrne, is a co-owner of Longtail Aviation ("Longtail"), a Bermuda-based aircraft charter company. During 2005, White Mountains paid Longtail approximately \$86,000 for aircraft services.

Mr. John Gillespie indirectly through general and limited partnership interests holds a 44% interest in Dowling & Partners Connecticut Fund III, LP ("Fund III"). Two of the Company's indirect wholly-owned subsidiaries, OneBeacon Professional Partners ("OBPP") and Folksamerica Specialty Underwriting, Inc. ("FSUI"), have borrowed approximately \$8 million and \$7 million, respectively, from Fund III in connection with an incentive program sponsored by the State of Connecticut known as the Connecticut Insurance Reinvestment Act (the "CIR Act"). The CIR Act provides for Connecticut income tax credits to be granted for qualifying investments made by approved fund managers. The loans made by Fund III to OBPP and FSUI are qualifying investments and, together, have the potential to generate up to \$15 million of tax credits that would be shared equally between Fund III on the one hand and OBPP and FSUI on the other. As a result of his interest in Fund III, Mr. Gillespie could realize up to \$3.3 million from such tax credits.

In 2001, WM Advisors entered into a five-year lease at a market-based rate for a building partially owned by Mr. John Gillespie and trusts for the benefit of members of his family (the "Gillespie Trusts"). For 2005, the rental payments attributable to Mr. Gillespie's ownership in the building totalled approximately \$18,000 and the rental payments attributable to the Gillespie Trusts' ownership in the building totalled approximately \$144,000.

EQUITY COMPENSATION PLAN TABLE

The following table provides information as of December 31, 2005 with respect to common shares that may be issued under White Mountains' existing incentive compensation plans. Performance shares awarded under the Incentive Plan are typically paid in cash, though they may be paid in common shares at

the election of the Board or a Committee of the Board. For that reason, these plans are listed in the Equity Compensation Plan Table below. Certain subsidiary incentive plans are cash-based plans which do not provide for the issuance of common shares and are therefore excluded from this table.

Plan category	(1) Number of securities that may be issued upon exercise or vesting of outstanding options, warrants and rights at target	(2) Weighted average exercise price of outstanding options, warrants and rights	(3) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (1))
Equity compensation plans approved by security holders - Incentive Plan:			
Performance shares	165,303	\$ 0	400,000(d)
Restricted Shares (a)	13,000	0	
Options (b)	34,280	149.25	
Equity compensation plans not approved by security holders - Performance Plan (c):			
Performance shares	10,590	\$ 0	500,000

- (a) The outstanding Restricted Shares, which were granted in 2003 and 2004, are currently outstanding but have not been earned. These Restricted Shares cliff vest over a three year term from the date of grant based on continuous service by the employee throughout such period.
- (b) The Options were granted in 2000 at an exercise price equal to the underlying market value of common shares on the date of grant. The exercise price escalates on a straight-line basis by 6% per annum over the ten-year life of the Options. The weighted average shown above represents the effective exercise price per Option at December 31, 2005.
- (c) The OneBeacon Performance Plan (the "Performance Plan") is a long-term incentive plan of OneBeacon which provides for granting of performance shares to certain of its key employees. The performance goals for full payment of performance shares issued under the Performance Plan are similar to those of the Incentive Plan. The Performance Plan was not subject to Member approval.
- (d) Under NYSE rules, common shares remain available for issuance when the Company pays cash or establishes deferred compensation balances in the settlement of its performance share obligations (which is typically the case) rather than issuing common shares. However, in keeping with the Company's corporate governance standards, the Compensation Committee has taken a more conservative approach by counting the number of performance shares granted at "target" against the Incentive Plan inventory. Under the Company's approach, as of March 27, 2006, 337,585 common shares remained available for future issuance under the Incentive Plan.

MEMBER PERFORMANCE GRAPH

The following graph shows the five-year cumulative total return for a Member who invested \$100 in common shares (NYSE symbol "WTM") as of January 1, 2001, assuming re-investment of dividends. Cumulative returns for the five-year period ended December 31, 2005 are also shown for the Standard & Poor's 500 Stocks (Property & Casualty) Capitalization Weighted Index ("S&P P&C") and the Standard & Poor's 500 Stocks Capitalization Weighted Index ("S&P 500") for comparison.

As stated herein, White Mountains' various compensation plans are based on its growth in its intrinsic value per common share. The Company's long-term goal is to maximize its intrinsic business value per common share which will, in turn, affect its market value per common share.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

Philosophy

The Company's executive compensation policies are designed with one goal in mind, maximization of Member value over long periods of time. The Compensation Committee believes that this goal is best pursued by utilizing a pay-for-performance program that serves to attract and retain superior executive talent and provide management with performance-based incentives to maximize Member value. Through this compensation program, the Compensation Committee seeks to maximize Member value by aligning closely the financial interests of management with those of its Members. To that end, the Compensation Committee has established base salaries and annual bonus targets for the Company's executives that tend to be lower than those paid by peer companies, while emphasizing highly variable long-term incentives. The long-term incentives are designed to pay a percentage of the value added over a low-risk threshold.

The Compensation Committee believes that the principal long-term measure of Member value created (or lost) is the Company's growth in its intrinsic value per share which is also referred to as its return on equity ("ROE"). In determining intrinsic value per share, the Compensation Committee considers the Company's growth in economic value per share (which is weighted 50%), growth in tangible book value per share (which is weighted 25%) and growth in market value per share (which is weighted 25%). This proprietary measure is viewed by management and the Board as being an objective and conservative measure of the value of the Company and includes the projected cost of all outstanding compensation awards. The Compensation Committee believes that, over long periods of time, maximizing the Company's intrinsic value per share will maximize Member returns.

The Compensation Committee also believes that performance-based compensation for key employees should be payable in full only if the Company achieves superior returns for its Members. Therefore, the targets of many of its performance-based compensation programs are directly linked to achievement of a stated annualized ROE. With respect to the Company's 2005 annual bonus program, target was set at 14.5%. With respect to the White Mountains performance share awards earned for the three-year performance period from January 1, 2003 to December 31, 2005, target was set at 11% and with respect to the White Mountains performance share awards granted for the three-year performance period from January 1, 2005 to December 31, 2007, target was set at 13%.

Certain annual and long-term compensation awards at the Company's subsidiaries are not directly tied to the Company's ROE. Instead, those awards are measured using goals that are pertinent to the subsidiary's overall business objectives which, if met, will allow the Company to achieve its ROE objectives.

2005 Compensation Actions

Compensation of White Mountains' executive officers (including its CEO), consists primarily of three components: base salary, annual bonus and long-term incentive awards.

Base Salary

Base salary for each Named Executive Officer is established annually, on or about March 1. When establishing the 2005 base salaries of the Named Executive Officers, the Compensation Committee considered numerous factors including each Named Executive Officer's qualifications, corporate responsibilities, performance since their last salary adjustment and, except for the CEO, the recommendations of the CEO. The current maximum base salary for the Named Executive Officers is \$400,000.

23

Annual Bonus

For 2005, the annual bonus target for each Named Executive Officer was equal to 50% of base salary. Each Named Executive Officer participates in the annual bonus pool of his affiliated business unit. The aggregate bonus pool size for each business unit can range from 0% to 200% of target. Individual bonuses can vary widely around the pool average and no cap (other than the size of the pool) applies to any single individual. Typically, the CEO of a business unit receives the average bonus percentage applicable to the business unit.

When approving the 2005 annual bonus pools, the Compensation Committee considered numerous factors including performance versus the objectives set forth in the Annual Business Plans of, as applicable, the Company, White Mountains Re, OneBeacon and Esurance, their respective financial performance for the latest fiscal year or otherwise, and the recommendations of the CEO.

After approving the 2005 annual bonus pools, the Compensation Committee considered the annual bonuses for Named Executive Officers. The factors considered by the Compensation Committee included individual achievements as compared to objectives contained in the Annual Business Plans, the contribution of such achievements to the Company's overall financial performance and the recommendations of the CEO.

The Compensation Committee determined that the 2005 financial results of the Company (the basis for Messrs. Fass, Foy and Chokel's annual bonus) did not warrant a bonus pool. The principal factor considered by the Compensation Committee in making this determination was the level of the Company's growth in intrinsic value in 2005, which was well below target. Mr. Foy, in accordance with the terms of his employment letter, received a 2005 annual bonus of \$200,000. See "Employment, Termination of Employment and Change in Control Agreements."

The Compensation Committee determined that the 2005 financial results of OneBeacon (the basis for Mr. Miller's annual bonus) warranted a bonus pool of 100% of target. The principal factor considered by the Compensation Committee in making this determination was OneBeacon's 2005 adjusted combined ratio, which met target. As CEO of the business unit, Mr. Miller was allocated an annual bonus for 2005 equal to the average bonus percentage of 100% of target, or \$200,000.

The Compensation Committee determined that the 2005 financial results of Esurance (the basis for Mr. Tolman's annual bonus) warranted a bonus pool of 95% of target. The principal factors considered by the Compensation Committee in making this determination were Esurance's strong underwriting results while growing substantially (75% year-over-year). As CEO of the business unit, Mr. Tolman was allocated an annual bonus for 2005 equal to the average bonus percentage of 95% of target, or \$190,000.

Mr. Barrette did not receive an annual bonus for 2005 as he retired from the Company prior to year-end.

Other Annual Compensation of the CEO

In May 2004, the Compensation Committee approved a \$12,000 monthly housing allowance for Mr. Fass in connection with his relocation to Bermuda, which is in-line with amounts paid by other Bermuda-domiciled insurers.

Long-Term Incentive Compensation

Over the past several years, the Company has principally utilized performance shares in its long-term compensation plans. Performance shares are payable only upon completion of pre-defined business goals and are valued based on the market value of common shares at the time awards are earned. Based on the level of performance against the pre-defined goals, the number of actual shares awarded can range from 0% to 200% of the number of target shares originally granted. Performance shares are typically paid in cash but can be paid in common shares if the Compensation Committee so determines.

A portion of the long-term incentive compensation grants made to those Named Executive Officers who are employees of the Company's operating subsidiaries are typically made in performance units, the value of which is tied to the performance of the applicable operating subsidiary. Performance units are payable only upon completion of pre-defined business goals and are paid in cash. Performance units typically compound in value by the particular subsidiary's after-tax return.

The Compensation Committee believes that awards of performance shares and performance units appropriately incentivize management to maximize Member value over the long term which aligns the interests of management with those of the Company's Members.

Long-term incentive awards earned during 2005

From January 1, 2003 to December 31, 2005, including dividends returned, the Company's tangible GAAP book value increased by approximately \$1.0 billion and its market capitalization increased by approximately \$2.6 billion.

Messrs. Fass, Foy and Chokel had, pursuant to a 2003 grant, 5,000, 10,000 and 3,000 target White Mountains performance shares, respectively, eligible for payout for the 2003-2005 performance share cycle. Target performance was predetermined by the Compensation Committee to be an ROE of 11%. At an ROE of 4% or less, no such performance shares would be earned, and at an ROE at or above 21%, 200% of such performance shares would be earned. In light of the results attained during the performance period, the Compensation Committee determined that the 2005 White Mountains performance shares were earned 142% based on an ROE of 15.2% versus target of 12%. As a result, Messrs. Fass, Foy and Chokel earned 7,100, 14,200 and 4,260 White Mountains performance shares, respectively, on February 22, 2006. The dollar value of such performance shares earned is included in the Summary Compensation Table for 2005.

Mr. Fass also had a contingent cash award under the Folksamerica Holding Company, Inc. Long-Term Incentive Plan for the 2003 to 2005 performance period. The target amount of this award was 100% of Mr. Fass' 2003 base salary increased or decreased by Folksamerica's UROC achieved during 2003 and White Mountains Re's UROC achieved during 2004 and 2005 (the "Adjusted UROC"). With respect to this award, target performance was predetermined to be the attainment of a 13.3% Adjusted UROC. At an Adjusted UROC of 6.3% or less, the award would not be earned and at an Adjusted UROC of 20.3% or more, the award would be earned 200%. During the 2003-2005 performance cycle, an Adjusted UROC of 16.3% was attained and as such the Compensation Committee determined that 144% of Mr. Fass' award, or \$1,132,051, was earned on February 22, 2006. This amount is included in the Summary Compensation Table for 2005.

Mr. Miller joined the Company during 2005 and did not have any long-term incentive awards for the 2003 to 2005 performance cycle.

Mr. Tolman had, pursuant to a 2005 grant, 307 target Esurance performance units eligible for payout for the performance unit cycle from January 1, 2005 to December 31, 2005. With respect to this award, target performance was predetermined by the Compensation Committee to be an EROC of 22.3%. During the 2005 performance cycle, an EROC of 21.0% was attained and as such the Compensation Committee determined that 90% of Mr. Tolman's award, or \$334,323, was earned on February 22, 2006. This amount is included in the Summary Compensation Table for 2005.

25

Mr. Chokel also had, pursuant to a 2003 grant under the OneBeacon Insurance Performance Unit Plan, 10,000 target OneBeacon performance units eligible for payout for the performance unit cycle from January 1, 2003 to December 31, 2005. With respect to this award, target performance was determined by the Compensation Committee to be a 96% adjusted combined ratio. At an adjusted combined ratio of 99% or more, the award would not be earned and at an adjusted combined ratio of 92% or less, the award would be earned 200%. During the 2003 - 2005 performance cycle, an adjusted combined ratio of 97.3% was attained and as such the Compensation Committee determined that 57% of Mr. Chokel's award, or \$1,376,000, was earned on February 22, 2006. This amount is included in the Summary Compensation Table for 2005.

Mr. Barrette had, pursuant to a 2003 grant, 15,000 target White Mountains performance shares eligible for payout for the 2003-2005 performance share cycle but, under the terms of the Incentive Plan, forfeited such performance shares upon his retirement from the Company in October 2005.

Long-term incentive awards granted during 2005

During 2005, Messrs. Fass, Miller, Foy, Tolman and Chokel were granted 5,000, 3,000, 6,000, 1,763 and 2,500 target White Mountains performance shares, respectively, by the Compensation Committee for the three-year performance cycle from January 1, 2005 to December 31, 2007. If the level of performance against the pre-defined goals were to result in a payout of 200% of target, Messrs. Fass, Miller, Foy, Tolman and Chokel would earn 10,000, 6,000, 12,000, 3,526 and 5,000 performance shares, respectively, for this performance cycle. During 2005, Messrs. Fass and Miller were also granted 1,000 and 1,200 target White Mountains performance shares, respectively, by the Compensation Committee for the three-year performance cycle from January 1, 2004 to December 31, 2006 as a result of promotions they received during the year. If the level of performance against the pre-defined goals were to result in a payout of 200% of target, Messrs. Fass, and Miller would earn 2,000 and 2,400 performance shares, respectively, for this performance cycle. With respect to the target performance shares awarded to the Named Executive Officers during 2005, target performance is an ROE of 13%. At a ROE of 6% or less (threshold) the percentage of performance shares payable will be 0% and at a ROE of 20% or more (maximum) the percentage of performance shares payable will become 200% of target.

Mr. Fass was also granted a contingent award of 1,400 target White Mountains Re performance units during 2005 for the three-year performance cycle from January 1, 2005 to December 31, 2007. Each performance unit is initially valued at \$1,000 (or \$1,400,000 in total) and compounds in value by White Mountains Re's after-tax UROC achieved during the performance period. With respect to this award, target performance is a 13% UROC. At a UROC of 6% or less (threshold) the percentage of performance units payable will be 0% and at a UROC of 20% or more (maximum) the percentage of performance units payable will be 200% of target. For results above or below target, linear interpolation is used to calculate the performance factor.

Mr. Miller was also granted a contingent award of 10,560 target OneBeacon performance units during 2005 for the three-year performance cycle from January 1, 2005 to December 31, 2007. Each performance unit is initially valued at \$100 (or \$1,056,000 in total) and compounds in value by OneBeacon's after tax UROC achieved during the performance period. With respect to this award, target performance is an adjusted GAAP combined ratio of 95%. At an adjusted GAAP combined ratio of 100% or more (threshold) the percentage of performance units payable will be 0% and at an Adjusted GAAP combined ratio of 90% or less (maximum) the percentage of performance units payable will be 200% of target. For results above or below target, linear interpolation is used to calculate the performance factor.

26

Mr. Miller was also granted a contingent award of 8,000 target OneBeacon performance units during 2005 for the three-year performance cycle from January 1, 2004 to December 31, 2006. Each performance unit is initially valued at \$100 (or \$800,000 in total) and compounds in value by OneBeacon's pretax UROC achieved during the performance period. With respect to this award, target performance is an adjusted GAAP combined ratio of 94%. At an adjusted GAAP combined ratio of 99% or more (threshold) the percentage of performance units payable will be 0% and at an adjusted GAAP combined ratio of 88% or less (maximum) the percentage of performance shares payable will be 200% of target. For results above or below target, linear interpolation is used to calculate the performance factor.

Mr. Tolman was also granted a contingent award of 906, 621 and 307 target Esurance performance units during 2005 for the three-year performance cycle from January 1, 2005 to December 31, 2007, the two-year performance cycle from January 1, 2005 to December 31, 2006 and the one-year performance cycle from January 1, 2005 to December 31, 2005, respectively. Each performance unit is initially valued at \$1,000 (or \$906,000 in total for the 2005-2007 cycle, \$621,000 in total for the 2005-2006 cycle and \$307,000 in total for the 2005 cycle) and compounds in value by the EROC achieved during the performance period.

Mr. Barrette was granted 8,000 target White Mountains performance shares by the Compensation Committee for the three-year performance cycle from January 1, 2005 to December 31, 2007 but, under the terms of the Incentive Plan, forfeited such performance shares upon his retirement from the Company in October 2005.

The Company did not grant any Options to acquire common shares or Restricted Shares during 2005.

Federal Income Tax Deductibility of Compensation

Under Section 162(m) of the Internal Revenue Code (the "Code"), the federal tax deduction for subsidiaries of the Company that are incorporated in the United States ("Domestic Subsidiaries") for all compensation paid to certain highly-paid executive officers of Domestic Subsidiaries in any one year is limited to \$1,000,000 per officer. Compensation that qualifies as performance-based compensation is exempt from this deduction limitation. The

Compensation Committee believes that the federal tax deductions arising from an officer's exercise of options or stock appreciation rights and amounts earned by an officer pursuant to performance share or performance unit awards should be exempt from this limitation. However, it is possible that in certain circumstances deductions arising from these awards would be subject to disallowance under Section 162(m) of the Code.

Summary

REPORT OF THE AUDIT COMMITTEE

In connection with the audit of the Company's financial statements for the year ended December 31, 2005, the Audit Committee has: (1) reviewed and discussed with management and PWC the Company's audited financial statements for the year ended December 31, 2005, management's assessment of the effectiveness of the Company's internal control over financial reporting and PWC's audit of the Company's internal control over financial reporting; (2) reviewed and discussed with PWC the matters required by Statement of Auditing Standards No. 61; and (3) reviewed and discussed with PWC the matters required by Independence Standards Board Statement No. 1.

Based on these reviews and discussions, the Audit Committee determined that the non-audit fees billed by PWC for services performed in 2005 and 2004 (as presented herein) are compatible with maintaining their independence. Further, the Audit Committee recommended to the Board that the audited financial statements be included in the Annual Report on Form 10-K for filing with the SEC and for presentation to the Members at the 2006 Annual Meeting.

Management is responsible for the preparation, presentation and integrity of the Company's consolidated financial statements as well as for establishing and maintaining adequate internal control over financial reporting. The Company's independent registered public accounting firm, PWC, is responsible for expressing its opinion on the conformity of the Company's audited financial statements with Generally Accepted Accounting Principles ("GAAP"). In addition, PWC is responsible for expressing opinions on the effectiveness of the Company's internal control over financial reporting and on management's assessment thereon. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with GAAP; that, as described above, is the responsibility of management and PWC. In giving its recommendation to the Board, the Audit Committee has relied on (1) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with GAAP and (2) the reports of PWC with respect to such financial statements.

The Audit Committee has established a Charter which outlines its primary duties and responsibilities. The Audit Committee Charter, which has been approved by the Board, is reviewed at least annually, is updated as necessary and is available for viewing at www.whitemountains.com.

INDEPENDENT REGISTERED PUBLIC ACCOUNTANT FEES AND SERVICES

The Audit Committee, pursuant to its policy, pre-approves the scope and fees for all services performed by PWC. Annually, the Audit Committee receives and pre-approves a written report from PWC describing the elements expected to be performed in the course of its audit of the Company's financials. All other audit, audit-related and non audit-related services rendered by PWC also require pre-approval, which may be granted in accordance with the provisions of the policy either (a) at a meeting of the full Audit Committee, (b) on an interim basis by the Chairman of the Audit Committee, provided that the requested services are not expressly prohibited and are ratified by the full Audit Committee at its next regularly scheduled meeting, or (c) on a per-project basis through specific compliance with pre-approved definitions of services that do not exceed per-project limits established by the Committee, provided that the Company's General Auditor makes a full report of all services pre-approved by the policy at the next regularly scheduled meeting of the Committee.

It is the intent of the policy to assure that PWC's performance of audit, audit-related and non audit-related services are consistent with all applicable rules on auditor independence. As such, services expressly prohibited by the Audit Committee under its policy include bookkeeping or other services related to the accounting records or financial statements of the Company or its subsidiaries; financial information systems design and implementation; appraisal and valuation services, fairness opinions; contribution-in-kind reports; certain actuarial services; internal audit outsourcing services; management functions; human resources; broker-dealer, investment advisor or investment banking services; legal services; and expert services unrelated to the audit.

All services performed by PWC during 2005 and 2004 were pre-approved by the Audit Committee pursuant to the policy described above.

The services performed by PWC in 2005 and 2004 are described below. PWC does not provide any services to the Company prohibited under applicable laws and regulations, such as financial information systems design and implementation. From time to time, PWC may perform permissible consulting services for the Company, provided they have been pre-approved in accordance with the policy described above. To the extent consulting services are provided by PWC, they are closely monitored and controlled by both management and the Audit Committee to ensure that their nature and extent do not interfere with the independence of PWC. The independence of PWC is also considered annually by the Audit Committee.

The following table sets forth the approximate aggregate fees billed by PWC for professional services provided in 2005 and 2004:

	2005	2004
Audit Fees (a)	\$ 4,086,346	\$ 4,320,220
Audit-Related Fees (b)	516,364	2,634,886
Tax Fees (c)	1,986,921	1,955,015
